GENERAL INFORMATIONs and EDUCATION

Phone	+39 335 1337202	Birth date	June 1, 1980
Email	simone.zabberoni@gmail.com	Driving Licence	Licence B & A3
Nationality	Italian	School	1999 – High School Diploma as Engineering Technician C/o ITIS Nullo Baldini, Ravenna.
		Languages	Italian – Mother tongue English – Very good fluency in reading and speaking

PROFESSIONAL SKILLS & CURRENT RESPONSIBILITIES

Project leader with experience in both domestic and international contexts, managing IT projects from design to engineering, planning, setup, delivery and maintenance.

Senior systems engineer with strong ICT skills, focused on server side architectures, networking and security in enterprise environments.

ISO 27001 “Security and risk management committee” member and “Risk and contingency” manager.

SKILL HIGHLIGHTS

Advanced system administration in Windows and Linux systems, infrastructure management, network analysis, log analysis, reporting, troubleshooting and performance analysis.

Advanced network management with firewall, routing and switching devices, Linux firewalls, Sophos XG/SG firewalls, Fortigate and Cisco.

Troubleshooting and problem analysis in large-scale networks, in-depth packet tracing and analysis.

Monitoring expert with Zabbix for infrastructure and application telemetry, integration of monitoring/alerting into helpdesk workflows and WhatIfs.

Strong IT engineering and project management skills in medium to enterprise environments: project design, cost analysis and benchmarking, planning and delivery.

Very good communication and team management capabilities used for task planning and allocation, project review meetings, customer meetings and claim handling.

Expertise in ISO 27001:2013 and its implementation in real-world scenarios: risk analysis, process analysis, control evaluation, procedure implementation, PDCA cycle and the management of non-conformities and corrective actions.

Experience in Service Desk Management, overseeing daily helpdesk operations and KPIs, managing anomalies and escalations.

SKILLS DEVELOPEMENT

Actively advancing in container technologies with Docker and Kubernetes for consolidation, application modernization and migration of services to the cloud.

Currently training for Amazon Web Services Certified Solutions Architect – Associate.

Currently studying ITIL methodologies.

Interested in voice user interfaces and their possible integration to IT and non-it services.

Writing and enhancing a reporting tool for Atlassian Trello project management in VueJS.

Frequent participation at SANS webinars and CFPs.

ADDITIONAL TECHNICAL DETAILS

Very strong skills on hosting platforms, reverse proxy and balancing, layer 3 and 4 advanced networking.

Very strong skills on enterprise mail systems with focus on peripheral gateway machines: antispam, rule filters, blacklisting/graylisting, dns load balancing and logging, specific relay configurations in multi-domain environments, message flow analysis and diagnostics.

Python, Perl, Bash and Powershell advanced scripting for system administration and bulk processing.

Strong skill on virtualized architectures with VmWare and HyperV.

Strong skills on Voip systems, planning, flow management and troubleshooting.

Strong skills in security assessment and penetration testing.

Good knowledge of the Elastic Stack for logging, analytics, dashboarding and reporting

Good skills on relational databases administration, experience with MySQL and Oracle management and migrations.

Good skills on client side security, on MS windows environment, with good antivirus management competences, mostly on Sophos and TrendMicro platforms.

Experience on microcontroller board programming and integration, mostly on Arduino and Atmel platforms, along with their development environment.
